

ESES

EUROPEAN SOCIETY OF ENDOCRINE SURGEONS

AIMS

- The advancement of knowledge and techniques in endocrine surgery.
- The promotion and maintenance of high standards in the clinical practice of endocrine surgery and in education and research.

For the implementation of these aims the Society's role includes:

- The organization of meetings, symposia, workshops and courses under the auspices of the Society and held by local members.
- Facilitating the publication of peer-reviewed articles on clinical and experimental endocrine surgery in an international surgical journal acting as the official organ of the Society
- Maintaining contact between the individual members of the Society by appropriate means
